

Splash guard three-sided 1000 SP

Splash-guard to be mounted on parts cleaning level of series 1000 SR or 600 SR, avoids splashing when cleaning great parts.
Height 600 mm – steel zinc-coated execution.

Fixed on the collector with simple hooks, thus easily to be attached and detached.

The splash-guard can be easily folded through hinges and quickly stowed

Can also be used with older models..
