# 1000 KW

## The Dirt Water Collector

---

The dirt water collector 1000 KW is used in workshops for cars, trucks, and any other vehicles to collect dirt water.

The collector is mobile and can be pushed on the ground under (almost) every vehicle. Given its extendable frame with wheels the collector the width can be adjusted to fit into every pit.

<b>Collects dirt water</b>	✓ Mobile and flexible
	✓ Both climate friendly and health friendly
	✓ Fits under (almost) every car, truck, or bus, and into any pit
<b>Garages for cars, trucks, busses etc.</b>	✓ Extendable frame and wheels => fits into every pit
	✓ For cleaning jobs on brakes, and at or under the chassis
	✓ For cars, utility vehicles, tanks, trains, ships, helicopters...
<b>Fleet management</b>	✓ Ideal for utility vehicles: Public transport, movers...
	✓ For companies with environmental conscience
	✓ Reduction of travel times around the pit

## Technische Daten 1000 KW

---

- Mobile and independent
  - Fits into every workshop, under (almost) every chassis, and due to adjustable wheel axes also into every pit
  - Slop break against slopping of dirt water during transport
- 

<b>Technical Data</b>	<b>1000 KW</b>
Filling capacity	Up to 90 liters
Transport capacity	Up to 50 liters
Load capacity	Up to 80 kg
Dimensions	930 x 630 x 210 mm
Pit width	730 - 1140 mm

Subject to technical modifications. As of August 13, 2021.
